Maybe you know this already, but I need a little brief on what an MCL means. I know WO is looking into it but we've not found this on the internets yet. Specifically looking for the exposure assumptions that went into deriving it.

Sitting in front of my computer today trying to catchup. Feel free to give me a call if you need anything. Just saw that the EU call was cancelled.

Dan – let me know if you need any help with the presentation for Sunday. Send me anything you like if you just want to discuss stuff.
